

"Beauty in Splendor" is the best fit definition in describing the self-taught makeup artistry talents of Makeup Artist, Chenesse Bean.

With just 8 years in the industry, Chenesse has accumulated a variety of clients. Past and Present such as L'Oreal Cosmetics, MAC Cosmetics, Ebony Magazine, People Magazine, Cincinnati Enquirer. Virgin Records recording artist "Sharissa", Sony Music recording group "Jagged Edge", Gospel legends "Byron Cage" & "J. Moss" and the list goes on. She's even had the opportunity to work on commercials, training videos and films. In which one of those films won an Emmy in 2002.

Born in Dayton, Ohio, and now residing in Cincinnati; Chenesse was drawn to fashion & beauty as a teen from playing in her mom's makeup bag to emulating fashion styles on TV such as those seen on her favorite show back then, "The Cosby Show".

1998 was an interesting year for Chenesse. The year she drew to her calling. God allowed her to cross paths with several people who affiliated themselves in her field in many ways. Hence the name of her business "Chenesse Bean Makeup Artistry" ...a name like no other.

Now 34, and known for her strong self-marketing capabilities. Chenesse has worked and assisted well known photographers, fashion stylists, makeup artists, and models throughout the world.

One chapter of her vision is to expand her artistry into an enterprise far beyond what one could image. The beginning phase of her enterprise is her creative website, [chenesebean.com](http://chenesebean.com)!

A single mom is on a mission describes her energy, perseverance, and dedication. And she's grateful that God has blessed her and her daughter while doing so with grace & favor. She heard T.D. Jakes once state: "If you're good at something run with it..." And that she's done, while wearing her 2 1/2 inch pumps!!

"Makeup artistry is not just about applying makeup...it's a profession, it's a skill, and it's a business, and you must be trust-worthy to do it. But first and foremost it's a big part of my life and that's a ministry", she states. I didn't become an artist overnight, only God knew that the years that I struggled, cried and overcame many life disappointments. To become a benefit to those I meet.

She concludes by saying, "I truly thank God daily for surrounding me with wonderful people and placing me in areas and situations that seemed a bit uncomfortable. But that's what growing is all about. You can't learn beyond what you know if you're always in a comfortable environment. Nor will you find out what you're capable of."

Demonstrating professionalism, Chenesse comes highly recommended and is one you can never afford to overlook.
